Yagita, H.
-, Asami, K., Muramatsu, A. and Fujimoto, K.
Oxidative dimerization of dimethyl ether with solid catalysts L5

Zhu, J.
- and Andersson, S.L.T.
Effect of water on the catalytic oxidation of toluene over vanadium oxide catalysts 251

Subject Index

Acetone hydrogenation
Design and study of catalysts for selective hydrogenation 63

Acetophenone hydrogenation
Unique bimetallic nickel-chromium and nickel-molybdenum catalysts for hydrogenation in the liquid phase 217

Acid catalysts
Acid catalyzed formation of ethyl tertiary butyl ether (ETBE) 263

Acid properties
Acid-leached dealuminated mordenite: effect of acid concentration on catalyst life in methanol conversion 169

Acid sites
Oxidative coupling of methane over alkali-doped antimony oxide 71

Acid sites
Oxidative coupling of methane over alkali-doped antimony oxide 71

Acid sites
Hydroxyl groups in phosphorus-modified HZSM-5 299

Acid-base properties
Aluminium phosphate-zirconia catalysts I. Structure, texture, acid-base properties and catalytic activity in cyclohexene isomerization of catalysts obtained with propylene oxide 135

Adsorption
Design and study of catalysts for selective hydrogenation 63

Adsorption
Semiconductivity study of ceria-supported nickel related to its methanation catalytic activity 117

Adsorption
Heats of adsorption and mass transfer coefficients of alkanes in zeolites Y and ZSM-20 273

Ageing
Semiconductivity study of ceria-supported nickel related to its methanation catalytic activity 117

Ageing
Acid-leached dealuminated mordenite: effect of acid concentration on catalyst life in methanol conversion 169

Ageing
Analytical electron microscopy of a vehicle-aged automotive catalyst 233

Ageing
Effect of water on the catalytic oxidation of toluene over vanadium oxide catalysts 251

Alcohol synthesis
Higher alcohols synthesis from $CO+2H_2$ on cobalt-copper catalysts. Use of probe molecules and chemical trapping in the study of the reaction mechanism 197

Alcohols synthesis
Synthesis of higher alcohols over copper/cobalt catalysts. Influence of preparative procedures on the activity and selectivity of Cu/Co/Zn/Al mixed oxide catalysts 279

Alkali metal bromide
Oxidative methylation of toluene with methane over alkali metal bromide loaded rare earth oxides L19

Aluminium phosphate-zirconia
Aluminium phosphate-zirconia catalysts I. Structure, texture, acid-base properties and catalytic activity in cyclohexene isomerization of catalysts obtained with propylene oxide 135

Amberlist
Acid catalyzed formation of ethyl tertiary butyl ether (ETBE) 263

Amino alcohol cyclization
Synthesis of cyclic amines and their alkyl derivatives from amine alcohols over supported copper catalysts 107

Ammonia synthesis
Ammonia synthesis over ruthenium supported catalysts derived from $Ru_3(CO)_{12}$ L1

Anionic vacancies
Semiconductivity study of ceria-supported nickel related to its methanation catalytic activity 117

Antimony oxide
Oxidative coupling of methane over alkali-doped antimony oxide 71

Automotive catalyst
Analytical electron microscopy of a vehi-

cle-aged automotive catalyst 233

Bentonite
Alkylation of benzene using an aqueous solution of ethanol 157
Benzene alkylation
Alkylation of benzene using an aqueous solution of ethanol 157
Benzyl alcohol
Real and apparent dispersion of carbon supported palladium–cobalt catalysts 29
Butanethiol desulphurization
Catalytic effect on hydrogen sulphide generation from a tar sand 81

Catalyst characterization (acidity)
Chemisorptive and catalytic properties of rhodium mixed oxide ($RhNbO_4$) catalyst during oxidation–reduction treatments. A high activity for ethane hydrogenolysis L11
Catalyst characterization (BET, XRD, IR)
Aluminium phosphate–zirconia catalysts I. Structure, texture, acid–base properties and catalytic activity in cyclohexene isomerization of catalysts obtained with propylene oxide 135
Catalyst characterization (EDX)
Analytical electron microscopy of a vehicle-aged automotive catalyst 233
Catalyst characterization (electrochemical polarization, TEM)
Real and apparent dispersion of carbon supported palladium–cobalt catalysts 29
Catalyst characterization (magnetic, electrical measurements)
Semiconductivity study of ceria-supported nickel related to its methanation catalytic activity 117
Catalyst characterization (TEM, STEM, EDX, EELS, Auger)
Unique bimetallic nickel–chromium and nickel–molybdenum catalysts for hydrogenation in the liquid phase 217
Catalyst characterization (temperature-programmed techniques)
Design and study of catalysts for selective hydrogenation 63
Catalyst characterization (temperature-programmed techniques, XPS)
Acid-leached dealuminated mordenite: effect of acid concentration on catalyst life in methanol conversion 169
Catalyst characterization (temperature-programmed techniques IR)
Hydroxyl groups in phosphorus-modified HZSM-5 299
Catalyst characterization (thermal analysis, XRD, TPR, SQXRF)
Synthesis of higher alcohols over copper/cobalt catalysts. Influence of preparative procedures on the activity and selectivity of Cu/Co/Zn/Al mixed oxide catalyst 279
Catalyst preparation (cluster decomposition)
Ammonia synthesis over ruthenium supported catalysts derived from $Ru_3(CO)_{12}$ L1
Catalyst preparation (co-reduction)
Unique bimetallic nickel–chromium and nickel–molybdenum catalysts for hydrogenation in the liquid phase 217
Catalyst preparation (dealumination)
Acid-leached dealuminated mordenite: effect of acid concentration on catalyst life in methanol conversion 169
Catalyst preparation (reduction)
Preparation of uniformly dispersed nickel/silica catalysts from synthetic nickel-chrysotile 15
Catalyst preparation (rolling technique)
Design and study of catalysts for selective hydrogenation 63
Catalyst preparation (statistical evaluation)
Synthesis of higher alcohols over copper/cobalt catalysts. Influence of preparative procedures on the activity and selectivity of Cu/Co/Zn/Al mixed oxide catalysts 279
Chemical trapping
Higher alcohols synthesis from $CO+2H_2$ on cobalt–copper catalyst. Use of probe molecules and chemical trapping in the study of the reaction mechanism 197
Chrysotile
Preparation of uniformly dispersed nickel/silica catalysts from synthetic nickel-chrysotile 15
Cobalt–copper
Higher alcohols synthesis from $CO+2H_2$ cobalt–copper catalyst. Use of probe molecules and chemical trapping in the study

of the reaction mechanism 197
Coke formation
Effect of sulphur on the coking of rhodium in the steam reforming of 1-methylnaphthalene 95
Coke formation
Semiconductivity study of ceria-supported nickel related to its methanation catalytic activity 117
Coke formation
Activity and selectivity modifications produced by coke deposition on mono- and bimetallic reforming catalysts 53
Copper
Design and study of catalysts for selective hydrogenation 63
Copper–cobalt mixed oxides
Synthesis of higher alcohols over copper/cobalt catalysts. Influence of preparative procedures on the activity and selectivity of Cu/Co/Zn/Al mixed oxide catalysts 279
Copper/alumina
Synthesis of cyclic amines and their alkyl derivatives from amine alcohols over supported copper catalysts 107
Crystallite size
Preparation of uniformly dispersed nickel/silica catalysts from synthetic nickel-chrysotile 15
Cyclic amine synthesis
Synthesis of cyclic amines and their alkyl derivatives from amine alcohols over supported copper catalysts 107
Cyclohexene isomerization
Aluminium phosphate–zirconia catalysts I. Structure, texture, acid-base properties and catalytic activity in cyclohexene isomerization of catalysts obtained with propylene oxide 135

Dehydrogenation
Activity and selectivity modifications produced by coke deposition on mono- and bimetallic reforming catalysts 53
Desulphurization
Catalytic effect on hydrogen sulphide generation from a tar sand 81
Dimethoxyethane synthesis
Oxidative dimerization of dimethyl ether with solid catalysts L5
Dimethyl ether dimerization
Oxidative dimerization of dimethyl ether with solid catalysts L5
Dispersion
Real and apparent dispersion of carbon supported palladium–cobalt catalysts 29

Ethane hydrogenolysis
Chemisorptive and catalytic properties of rhodium mixed oxide ($RhNbO_4$) catalyst during oxidation–reduction treatments. A high activity for ethane hydrogenolysis L11
Ethyl tertiary butyl ether formation
Acid catalyzed formation of ethyl tertiary butyl ether (ETBE) 263
Ethylene glycol
Oxidative dimerization of dimethyl ether with solid catalyst L5

Ferric chloride
Kinetics of the esterification of methacrylic acid with ethylene oxide in the presence of ferric chloride immobilized on polymer support 41
Fischer–Tropsch synthesis
Influence of reaction conditions of the effect of co-feeding ethene in the Fischer–Tropsch synthesis on a fused-iron catalyst in the liquid phase 1
Fischer–Tropsch synthesis
Preparation of uniformly dispersed nickel/silica catalysts from synthetic nickel-chrysotile 15
Fluorocarbon sulphonic acid
Acid catalyzed formation of ethyl tertiary butyl ether (ETBE) 263

Heats of adsorption
Heats of adsorption and mass transfer coefficients of alkanes in zeolites Y and ZSM-20 273
Hydrogenation
Unique bimetallic nickel–chromium and nickel–molybdenum catalysts for hydrogenation in the liquid phase 217
Hydrogenolysis
Activity and selectivity modifications produced by coke deposition on mono- and bimetallic reforming catalysts 53

Isomerization
Activity and selectivity modifications produced by coke deposition on mono- and bimetallic reforming catalysts 53

Kinetics
Influence of reaction conditions of the effect of co-feeding ethene in the Fischer–Tropsch synthesis on a fused-iron catalyst in the liquid phase 1
Kinetics
Kinetics of the esterification of methacrylic acid with ethylene oxide in the presence of ferric chloride immobilized on polymer support 41
Kinetics
Catalytic reaction selectivity in unsteady states 89
Kinetics
Semiconductivity study of ceria-supported nickel related to its methanation catalytic activity 117

Mass transfer coefficients
Heats of adsorption and mass transfer coefficients of alkanes in zeolites Y and ZSM-20 273
Methacrylic acid esterification
Kinetics of the esterification of methacrylic acid with ethylene oxide in the presence of ferric chloride immobilized on polymer support 41
Methanation
Semiconductivity study of ceria-supported nickel related to its methanation catalytic activity 117
Methane oxidative coupling
Methane oxidative coupling over titanate catalysts 183
Methane oxidative dimerization
Oxidative coupling of methane over alkali-doped antimony oxide 71
Methanol conversion
Acid-leached dealuminated mordenite: effect of acid concentration on catalyst life in methanol conversion 169
Methylnaphthalene
Effect of sulphur on the coking of rhodium in the steam reforming of 1-methylnaphthalene 95
Nickel/ceria
Semiconductivity study of ceria-supported nickel related to its methanation catalytic activity 117
Mordenite
Acid-leached dealuminated mordenite: effect of acid concentration on catalyst life in methanol conversion 169

Nickel
Design and study of catalysts for selective hydrogenation 63
Nickel–chromium
Unique bimetallic nickel–chromium and nickiel–molybdenum catalysts for hydrogenation in the liquid phase 217
Nickel–chrysotile
Preparation of uniformly dispersed nickel/silica catalysts from synthetic nickel—chrysotile 15
Nickel–molybdenum
Unique bimetallic nickel–chromium and nickel–molybdenum catalysts for hydrogenation in the liquid phase 217
Nickel/silica
Preparation of uniformly dispersed nickel/silica catalysts from synthetic nickel—chrysotile 15

Olefins
Influence of reaction conditions of the effect of co-feeding ethene in the Fischer–Tropsch synthetis on a fused-iron catalyst in the liquid phase 1
Oxidation–reduction treatments
Chemisorptive and catalytic properties of rhodium mixed oxide ($RhNbO_4$) catalyst during oxidation–reduction treatments. A high activity for ethane hydrogenolysis L11
Oxidative coupling
Oxidative coupling of methane over alkali-doped antimony oxide 71
Oxidative coupling
Methane oxidative coupling over titanate catalysts 183
Oxidative methylation
Oxidative methylation of toluene with methane over alkali metal bromide loaded rare earth oxides L19

Palladium–cobalt/carbon

Real and apparent dispersion of carbon supported palladium–cobalt catalysts 29
Phosphorus
Hydroxyl groups in phosphorus-modified HZSM-5 299
Platinum
Activity and selectivity modifications produced by coke deposition on mono- and bimetallic reforming catalysts 53
Platinum–palladium–rhodium
Analytical electron microscopy of a vehicle-aged automotive catalyst 223
Polymer support
Kinetics of the esterification of methacrylic acid with ethylene oxide in the presence of ferric chloride immobilized on polymer support 41
Probe molecules
Higher alcohols synthesis from $CO+2H_2$ on cobalt–copper catalyst. Use of probe molecules and chemical trapping in the study of the reaction mechanism 197
Propionitrile hydrogenation
Real and apparent dispersion of carbon supported palladium–cobalt catalysts 29
Propyl amines
Real and apparent dispersion of carbon supported palladium–cobalt catalysts 29
Pulse-flow reactor
Catalytic effect on hydrogen sulphide generation from a tar sand 81

Rare earth oxides
Oxidative methylation of toluene with methane over alkali metal bromide loaded rare earth oxides L19
Redox cycle
Oxidative dimerization of dimethyl ether with solid catalysts L5
Reforming catalysts
Activity and selectivity modifications produced by coke deposition on mono- and bimetallic reforming catalysts 53
Rhodium mixed oxide catalyst
Chemisorptive and catalytic properties of rhodium mixed oxide ($RhNbO_4$) catalyst during oxidation–reduction treatments. A high activity for ethane hydrogenolysis L11
Rhodium/alumina
Effect of sulphur on the coking of rhodium in the steam reforming of 1-methylnaphthalene 95
Ring contraction
Activity and selectivity modifications produced by coke deposition on mono- and bimetallic reforming catalysts 53
Ruthenium/alumina
Ammonia synthesis over ruthenium supported catalysts derived from $Ru_3(CO)_{12}$ L1

Selective hydrogenation
Design and study of catalysts for selective hydrogenation 63
Selectivity (benzoic acid, benzaldehyde)
Effect of water on the catalytic oxidation of toluene over vanadium oxide catalysts 251
Selectivity (C_2 hydrocarbons)
Oxidative coupling of methane over alkali-doped antimony oxide 71
Selectivity (changes)
Activity and selectivity modifications produced by coke deposition on mono- and bimetallic reforming catalysts 53
Selectivity (cyclic amines)
Synthesis of cyclic amines and their alkyl derivatives from amine alcohols over supported copper catalysts 107
Selectivity (ethyl benzene)
Alkylation of benzene using an aqueous solution of ethanol 157
Selectivity (higher alcohols)
Synthesis of higher alcohols over copper/cobalt catalysts. Influence of preparative procedures on the activity and selectivity of Cu/Co/Zn/Al mixed oxide catalysts 279
Selectivity (methane)
Semiconductivity study of ceria-supported nickel related to its methanation catalytic activity 117
Selectivity (methyl isobutyl ketone)
Design and study of catalysts for selective hydrogenation 63
Selectivity (phenylethanol)
Unique bimetallic nickel–chromium and nickel–molybdenum catalysts for hydrogenation in the liquid phase 217
Selectivity (theoretical)

Catalytic reaction selectivity in unsteady states 89
Selectivity, (hydrocarbons)
Methane oxidative coupling over titanate catalysts 183
Slurry reactor
Influence of reaction conditions of the effect of co-feeding ethene in the Fischer-Tropsch synthesis on a fused-iron catalyst in the liquid phase 1
Steam reforming
Effect of sulphur on the coking of rhodium in the steam reforming of 1-methylnaphthalene 95
Sulphur
Effect of sulphur on the coking of rhodium in the steam reforming of 1-methylnaphthalene 95
Syngas conversion
Influence of reaction conditions of the effect of co-feeding ethene in the Fischer-Tropsch synthesis on a fused-iron catalyst in the liquid phase 1
Syngas conversion
Higher alcohols synthesis from $CO+2H_2$ on cobalt-copper catalyst. Use of probe molecules and chemical trapping in the study of the reaction mechanism 197
Syngas conversion
Synthesis of higher alcohols over copper/cobalt catalysts. Influence of preparative procedures on the activity and selectivity of Cu/Co/Zn/Al mixed oxide catalysts 279

Tar sand
Catalytic effect on hydrogen sulphide generation from a tar sand 81
Tin oxide/magnesia
Oxidative dimerization of dimethyl ether with solid catalysts L5
Titanate catalysts
Methane oxidative coupling over titanate catalysts 183
Toluene methylation
Oxidative methylation of toluene with methane over alkali metal bromide loaded rare earth oxides L19
Toluene oxidation
Effect of water on the catalytic oxidation of toluene over vanadium oxide catalysts 251

Unsteady states
Catalytic reaction selectivity in unsteady states 89

Vanadium oxide/titania
Effect of water on the catalytic oxidation of toluene over vanadium oxide catalysts 251

Water addition
Effect of water on the catalytic oxidation of toluene over vanadium oxide catalysts 251

Zeolites
Alkylation of benzene using an aqueous solution of ethanol 157
Zeolites
Acid catalyzed formation of ethyl tertiary butyl ether (ETBE) 263
Zeolites
Heats of adsorption and mass transfer coefficients of alkanes in zeolites Y and ZSM-20 273
Zeolites
Hydroxyl groups in phosphorus-modified HZSM-5 299
